Summer Library Program

Since the summer of 2008, Central Unified School District has opened selected school site libraries within its jurisdiction. These sites are been open to the public with a strong focus on having the area's children visit these sites. Central Unified understands not having public libraries in the part of our community has created hardships on family's ability to access quality reading materials during the summer. Central Unified takes its role very seriously when it come to education our communities children and making sure all that is learned during the school year is not lost, and that is why the Central Unified is opening six locations to serve the public (see locations on the previous page).

The McCaffrey Group funded this program through the Christmas Tree Lighting event held November 30, 2012 to which ABC 30 was a proud sponsor. The Foundation for Central Schools received \$7,947.50 to help support this effort.

Please see page two for locations and hours of both program.
