Established by voter proposition in 1999, the SFMTA, a department of the City and County of San Francisco, oversees the Municipal Railway (Muni), parking and traffic and taxis. With five modes of transit, Muni has approximately 700,000 passenger boardings each day. Over 35,000 extra vehicles enter San Francisco on any given business day, and rely on the SFMTA to keep the flow of cars, transit vehicles, taxis, delivery trucks, pedestrians and bicycles moving smoothly through the streets.
