Summary Results  
ABC7 Listens Poll #70 - June, 2008

Impact of Gender, Race and Age on the 2008 Presidential Election

1. There has been a lot of debate about the roles of gender and race in this presidential campaign. First, do you believe that gender is or is not playing a significant role in determining who the Democratic nominee will be?

   44% 1. Played a significant role  
   50% 2. Did not play a significant role  
   6% 3. Not sure/No opinion

2. Overall, do you think that Hillary Clinton’s gender has helped her, has hurt her or has had little or no impact on her primary campaign?

   25% 1. Helped her  
   39% 3. Little or no impact  
   29% 2. Hurt her  
   7% 4. Not sure/No opinion

3. Do you believe that race or ethnicity is or is not playing a significant role in determining who the Democratic nominee will be?

   59% 1. Played a significant role  
   35% 2. Did not play a significant role  
   6% 3. Not sure/No opinion

4. Overall, do you think that Barack Obama’s race or ethnicity has helped him, has hurt him or has had little or no impact on his primary campaign?

   41% 1. Helped him  
   29% 3. Little or no impact  
   24% 2. Hurt him  
   6% 4. Not sure/No opinion

5. If Barack Obama is the Democratic nominee, do you think his race or ethnicity will help him, hurt him or have little or no impact on his campaign in the General election?

   18% 1. Will help him  
   30% 3. Little or no impact  
   42% 2. Will hurt him  
   10% 4. Not sure/No opinion

6. Do you think John McCain’s age will or will not play a significant role in the outcome of the race against either candidate?

   48% 1. Will not play a significant role  
   40% 2. Will play a significant role against either candidate  
   1% 3. Will play a significant role against Clinton only  
   3% 4. Will play a significant role against Obama only  
   8% 5. Not sure/No opinion
7. Do you think John McCain’s age will help him, hurt him or have little or no impact on his campaign in the General election?

</tr>
</tbody>
</table>
12. An initiative that may be on the November ballot would overturn this ruling and ban same-sex marriage by amending the California Constitution to add the phrase 'Only marriage between a man and a woman is valid and recognized in California'. If a proposed constitutional amendment to ban same-sex marriage were on the ballot this November, do you think you would probably favor or probably oppose it?

34% 1. Favor  61% 2. Oppose  5% 3. Not sure/No Opinion

13. Do you think homosexual relations between consenting adults should be legal or not legal?

81% 1. Should be Legal  
12% 2. Should be Not Legal  
7% 3. Not Sure/No Opinion

14. Do you feel that homosexuality should be considered acceptable or not?

72% 1. Acceptable  
18% 2. Not Acceptable  
10% 3. Not Sure/No Opinion

15. In your view, is homosexuality something a person is born with, or is homosexuality due to factors such as upbringing and environment?

42% 1. Born With  
36% 2. Upbringing/Environment  
12% 3. Both  
10% 4. Neither/Not sure/No opinion

16. Would you like to see homosexuality be more widely accepted in this nation, less widely accepted, or is the acceptance of homosexuality in this nation today about right?

54% 1. More widely accepted  
17% 2. Less widely accepted  
21% 3. About right  
8% 4. Not sure

17. Do think that same sex marriage will ever be legalized nationally?

46% 1. Yes  
40% 2. No  
14% 3. Not sure

18. Would you favor or oppose an amendment to the U.S. Constitution prohibiting same sex marriages?

32% 1. Favor  
62% 2. Oppose  
6% 3. Not sure
19. Do you think homosexual couples should or should not have the right to adopt a child?

66% 1. Should Have Right  
22% 2. Should Not Have Right  
12% 3. Not Sure/No Opinion

20. Do you think a homosexual person should or should not have the right to adopt their partner's children?

71% 1. Should Have Right  
17% 2. Should Not Have Right  
12% 3. Not Sure/No Opinion

21. Do you think homosexual couples should or should not have the same legal rights as married heterosexual couples regarding health care benefits and Social Security survivor benefits?

77% 1. Yes/Should Have  
19% 2. No/Should Not Have  
4% 3. Not Sure/No Opinion

22. Do you think homosexuals should or should not have equal rights in terms of job opportunities?

94% 1. Yes – Should  
4% 2. No – Should not  
2% 3. Depends

23. Do you favor or oppose allowing openly gay men and lesbian women to serve in the military?

74% 1. Favor  
17% 2. Oppose  
9% 3. Not sure

24. There is a proposal to expand federal hate crime laws to include crimes committed on the basis of the victim's gender, sexual orientation or gender identity. Would you favor or oppose expanding the federal hate crime laws in this way?

73% 1. Favor  
20% 2. Oppose  
7% 3. Not sure

25. Which of the following best describes your sexual orientation?

90% 1. Heterosexual  
6% 2. Gay  
2% 3. Lesbian  
2% 4. Bisexual  
.2% 5. Transgender
26. Which of the following best describes your household?

33% 1. Single [Skip to Q. 29]  6% 3. Unmarried Couple [Skip to Q. 29]
56% 2. Married [Skip to Q. 29]  5% 4. Same Sex Partners

[Ask only same sex partners Q. 27 + 28]
27. Given the recent California Supreme Court decision, do you think you will probably change your domestic status or not?

43% 1. Yes – Plan on marrying your partner
24% 2. No – Do not plan on marrying your partner
5% 3. Already married
28% 4. Not sure/No opinion

28. Are you and your partner registered domestic partners in California or another state?

67% 1. Yes  33% 2. No

29. Do you have children living in your household?

29% 1. Yes  71% 2. No

30. Are there any comments you would like to add on this topic?

Survey Background Facts

Number of People Interviewed: 907 Bay Area Residents
Conducted Online by: Hertz Research, Petaluma, CA

How ABC7 Listens Polls are Conducted and Potential Sources of Error

ABC7 Listens Polls are conducted by Hertz Research of Petaluma, California. The polls are conducted online among Bay Area residents who registered in advance to participate in the ABC7 Listens Polling program. In order to create samples as representative of the entire Bay Area population as possible, the results for each poll are statistically weighted using a variety of demographic factors provided by respondents during the registration process. These statistical weighting procedures also take into account differences between groups of people who tend to use or not use the Internet.

Regardless of methodology, all polls are potentially affected by a number of factors that may influence their accuracy. A common source for survey inaccuracy is sampling error. The number of respondents largely determines sampling error. Statistical theory indicates that in the case of a poll with this sample size (907 Total Interviews), 95 percent of the time the results of a survey of this size would be the same as interviewing the entire population of the Bay Area, give or take approximately four percent. This is not a probability sample.

However, other sources of error also can impact the accuracy of poll results conducted online and with other techniques. These include but are not limited to the percentage of the population choosing to participate, the likelihood a possible respondent is at home or connected to the Internet, the wording, and ordering of questions, and the techniques used to determine possible survey participants and likely voters. The cumulative impact of all of these potential sources of error is impossible to assess precisely.
