To whom it may concern:

Dan Patrick (Dan Goeb) was a patient of mine in the mid 1980's. He entered the hospital on a voluntary basis for the treatment of depression. The symptoms of depression decreased within a short period of time and he was discharged.

There was no evidence of cognitive impairment. Since he has been asymptomatic for all these years, a reoccurrence is unlikely.

If there is any other information needed, please do not hesitate to contact my office.
