Community: HCSO: Statement on Behalf of Sheriff Ron Hickman

Dear Nixle User,

"Our office has been advised of an inappropriate relationship between a witness in the capital murder investigation of Shannon Miles and a Sheriff's Office investigator.

"This investigator's conduct was unethical and inexcusable and does not reflect the core values of the Harris County Sheriff's Office. The misconduct of this individual investigator is an anomaly and does not represent the conduct of the men and women who work daily to protect the lives of the citizens of Harris County.

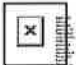

"I was appalled to learn of this behavior and immediately took action. The investigator has been relieved of duty pending the outcome of our joint investigation with the District Attorney's Office.

"I remain steadfastly committed to working with District Attorney Devon Anderson in pursuing the successful prosecution of the suspect Shannon Miles."
