StoneGablesEstate.com

April 2019

The Stone Gables Estate has been viciously attacked for its Faith Beliefs, which are fully protected by the United States Constitution. This country was founded on religious freedom not freedom from religion. We are one nation under God, not one nation over God.

- We have been falsely accused of discriminating against people which is absolutely not true. In 43 years of business and over 600 associates, we have never discriminated against people, as we believe that all people are created in the image and likeness of God. Discrimination against people will not be tolerated.
- We have been persecuted for our faith beliefs that are a long-standing (2000 years) core tenet of our Biblical faith.
- We are being discriminated against, judged and condemned for our faith beliefs and our freedom to live them out in our lives.

The stewards of Stone Gables Estate have core pillars of their faith that differ from others' beliefs and the faith they have in them. It is NOT discrimination to respect that difference and to be open-minded to allow it to be lived out in each person's life without forcing participation that is in direct opposition to the faith belief of the other.

All people are welcome at the Stone Gables Estate public events and to host private events to the extent that they are not in direct contradiction to our core faith tenets.

My name is David Abel and my email address is dza@stonegablesestate.com if you would like to get together to understand my heart and the reasons why, I will do my best to accommodate any contact, however any contact not seeking to understand but to wound will be deleted.

Sincerely,

A handwritten signature in blue ink, appearing to read "David Z. Abel". The signature is stylized and cursive.

David Z. Abel
Steward
Stone Gables Estate

Hospitality is the openness to welcome all without discrimination and respecting the differences in each person's beliefs and the way they live them out. Supporting each other's business in Lancaster County without discrimination is a model the world needs.
