

INTERNATIONAL
ASSOCIATION OF
TRAMPOLINE
PARKS

Contact: Bethany Evans, Executive VP – Bethany@indoortampolineparks.org

February 15, 2019

Patron safety is a top priority for the International Association of Trampoline Parks (IATP). Every incident is a serious matter, and we take every opportunity to communicate and recommend to our members that all optimal steps be taken to mitigate risks. The IATP advocates that trampoline parks abide by ASTM International F2970-17, the Standard Practice for Design, Manufacture, Installation, Operation, Maintenance, Inspection and Major Modification of Trampoline Courts.

With over 80,000,000 hours spent jumping in trampoline parks across America in 2018 the IATP is pro-actively engaged in developing two programs aimed at enhancing guest safety. “Let’s Get Jumping” will launch in the summer of 2019 in an effort to offer educational resources to parents and jumpers before they visit an indoor trampoline park, and by September 2020 all member parks will be required to pass a third - party inspection to continue with IATP membership providing guests with a clear choice when choosing a trampoline park to visit.

We currently urge all guests of indoor trampoline parks to look for, or ask the following before they jump:

1. Never jump without a court monitor stationed at the activity
2. Be certain to read all rules and regulations posted throughout the park
3. Make sure to watch a safety video or have a safety briefing from staff
4. Always be aware of your surroundings, and never jump around or near other jumpers
5. If the park has a foam pit make sure the foam is at or above the level of the trampoline
7. Look for the IATP membership sticker on the door
